

Metropolitan Planning Organizations

Applications for proposed Transportation Enhancement (TE) projects located within a Metropolitan Planning Organization (MPO) area require an endorsement from the local MPO. These are regional planning agencies that are responsible for developing a transportation plan providing for the development, integrated management, and operation of transportation systems and facilities for the urbanized area they represent.

If the proposed TE project is selected for funding, the MPO must approve its addition into their local Transportation Improvement Program (TIP) before federal funds can be made available.
